When Flash DOT Services was formed, we took more than 25 years of Safety Compliance experience and combined it with the newest innovations in technology. A company was born that could meet all the US DOT consulting needs for the nation's top corporations and carriers. Since our inception, we have been serving from small entities to Fortune 500 companies in the transportation areas of Dry, Flatbed, Tanker and Hazardous materials with great success. Whether you are in need of a review of your current compliance status or a full blown revamp of your safety practices, you can depend on Flash

Mission Statement

At Flash DOT Services our mission is to provide our clients clear and concise assistance in all aspects of Federal and State regulation requirements. We accomplish this by providing professional training, setting up policies and up to date electronic filing preparation systems. We will also seek to maintain your satisfactory rating with all Federal and State agencies, and accomplish this through our greatest resource and most valuable asset; our dedicated employees. We promise to provide all this at a fair and equitable cost to our clients.
